Walker Electronics Limited Brexit Statement

Walker Electronics Limited have assessed the impact of Brexit and are confident that there will little effect on our business and the products that we supply.

As a member of the Made in Britain mark we manufacture in Collingham using products and parts 100% sourced from UK based companies. Any product that is sold by us but not manufactured by us is also sourced from UK based suppliers. We do not import or export goods.

We have asked our suppliers if they anticipate any delays in sourcing products which are used in the manufacture of what they supply to us. They in turn have audited their suppliers. Both foresee no major issues.

Whilst we cannot be 100% sure that Brexit will not impact on our ability to supply our products, we are confident that the effect will extremely limited.

A handwritten signature in blue ink, appearing to read 'B Everitt', with a long horizontal stroke extending to the right.
