

# THE WHITE TIGER HURRICANE MOBILE SANITISING SYSTEM

**Walker  
Electronics  
Limited**

## Uses WELsan Sanitising Solution

**Fast, powerful, cost effective & simple to use**

**Effective against all pathogens with long lasting effects**

**Compact system, light & easily manoeuvrable**

- Dimensions: L 520mm x W 520mm x H 750mm (with handle folded)
- Weight: 32kg/40kg laden with sanitiser
- Power: 230-240v/1.1A
- Length of cycle: 4 minutes
- Airflow: 500m<sup>3</sup> per min/2000m<sup>3</sup> per cycle
- Sanitiser dispensed: 20ml per sec in 40µ droplets/2.4cc per m<sup>3</sup>
- Sanitiser usage: 300ml per minute
- Coverage: L 15m x W 4m x H 10m
- Dispersion angle: 45°

**WHITE TIGER**

The White Tiger Hurricane Mobile Sanitising System is a robust, efficient and inexpensive sanitising system that generates a force of air which transports finely atomised WELsan Sanitising Solution across large areas onto surfaces and equipment.

The WELsan Solution settles on surfaces killing 99.9% of bacteria, spores, viruses and fungi on contact including COVID-19, MERS-CoV, Ebola, Clostridium Difficile, MRSA and Norovirus.

The Hurricane Mobile Sanitising System is a unique, robust, adaptable solution which is designed for customers who need to reduce the possibility of infection through contact with surfaces and equipment in a variety of locations. The portable sanitising system is extremely easy to use, simply wheel the system to the desired location and push a button. The system will then sanitise everything within close proximity within seconds.

The Hurricane Mobile is used in hospitals for the deep cleaning of side rooms, sanitisation of public areas like lifts and toilets and the regular sanitising of critical environments like operating theatres and clinics as well as in laundry vehicles transporting hospital linen. The flexibility and portability of the Hurricane Mobile delivers sanitising solutions where other options cannot help.
